INDEX VOLUME 29 1983

A

Aerospace industry, introducing CAE into the, by P. Birtles 59
Air pollution (letter) 463
All-electronics/ECIF Show. Exhibition preview 255
Allen, P.H.G.: Radiation and cooling (letter) 463
Alvey, J.: UK response to the 'fifth generation' 387
AM stereo — fact or fiction? by R.C.V. Macario 643
Amorphous-silicon devices start to shape up by L. Holmes 222
Angus, C.J.: Interactive graphics systems for CAE 13
Armitage Evans, R.: Fuse technology (letter) 768
Aspden, H.: Lightning leader (letter) 95
Automatic testing in the local telephone network by S.C. Coupe 502

B

Baggs, J.: Windpower (letter) 97
Baker, Kenneth.: Department of Industry's CAE initiatives 10
Ball, D.A.: Motors and motor drives: the new challenge 135
Ball lightning (letter) 97, 292
Barnard, R.M.: Is there a case for nuclear power? (letter) 97
Barrett, R.: Electronic document handling 481
Bartels, A.L.: Intrinsic safety 301
Bell, D.A.: Japanese industry (letter) 699
Bellairs, Lt.Col.G.ff.: Plus ca change . . . (letter) 386
Belsey, F.H.: Ball lightning (letter) 97
Bennett, A.: Specification of Ex'e' enclosures for electrical equipment for use in hazardous atmospheres 321
Bentham, F.C.: Power oscilloscopes (letter) 620
Bentham, F.C.: Engineering education (letter) 768
Besford, S.J., and Kelsey, T.: (see Kelsey) 724
Bettess, P., and Zienkiewicz.: (see Zienkiewicz) 50
Bickley, H.D.: Cooling of electronic equipment (letter) 386
Billam. P.J.A.: Air pollution (letter) 463
Billingsley, J., Naghdy, F., and Harrison, D.: The craftsman robot 805
Bingley, P.: Standards (letter) 463
Birtles, P.: Introducing CAE into the aerospace industry 59
Bonikowski, Z.: Cables for hazardous environments 317
Boon, D.: Selection of electrical apparatus for use in explosive gas atmospheres 305
Bradshaw, K.: Successful selling in Japan — the art of the practical 566
Bridgewater, T.H.: Reactance measurement (letter) 699
Broster, D., and South, A.: Role of CAD in semicustom IC design 42
Brown, S.L., Mackey, A.M., and Wrigley, M.F.: Computer supervision and control of a brewhouse 405
Bryce, A.B.: Windpower (letter) 292
Bryce, D.J., and Robertson, S.S.J.: Classification of hazardous areas — legal and economic considerations 298
Bus standards (letter) 619
Business role of the development engineer by J.W. Fairclough 337

C

Cable around the world by L. Holmes 478
Cable in the UK by D. Hepworth 471
Cable systems White Paper 373
Cables and equipment for cable systems by N.S. Dean 475
Cables for hazardous environments by Z. Bonikowski 317
CAD systems, the selection of, by P. Harrow 63
CADMAT appreciation — a progress report from industry by H.A. Dorey 47
CAE and civil engineering: computers, finite elements and the engineering profession by O.C. Zienkiewicz and P. Bettess 50
CAE of electrical machines by E.M. Freeman 31
Campbell, L.C., Pender, J.T., and Tedford, D.J.: (see Tedford) 719
Chambers, J.P.: Freezing costs (letter) 292
Chopra, H.L.: Street lighting (letter) 699
CHP schemes (letter) 619
Classification of hazardous areas — legal and economic considerations by D.J. Bryce and S.S.J. Robertson 298
Clegg, B.: Power-system monitoring equipment 166
CMOS run, what makes? by R. Dettmer 547
Coalmining environment, the use of busbars and sliding brushgear in a, by J.W. Talbut 310
Combined heat and power 373
Communication satellites, launchers for, by S.C. Pascall 631
Computer-aided engineering as a business by B. Gott 75
Computer-aided engineering workstation by W.E. Hillier 69
Computer-aided testing: the missing link in CADCAM by C.G. Winckless 36
Computer-based learning in engineering by P.R. Smith 27
Computer supervision and control of a brewhouse by S.L. Brown, A.M. Mackey and M.F. Wrigley 405
Computer technology for CAE systems by G. Freeman 18
Computers in data communication by L. Holmes 390
Computers in mechanical-components manufacture by L. Holmes 22
Cooling of electrical and electronic equipment in sealed enclosures by R.D. Johnson 332
Cooling of electronic equipment (letter) 386
Cott, P.J.: Mercury: high-speed integrated business telecommunications 489
Coupe, S.C.: Automatic testing in the local telephone network 502
Crew, E.W.: Ball lightning (letter) 292
Crossley, W.: Power-system economics (letter) 95
Crosstalk 17, 26, 81, 93, 128, 251, 289, 384, 461, 545, 615, 697, 767

D

Data networks, international, current and future developments in, by P.T.F. Kelly 635
Davidson, J.A.: Street lighting (letter) 619
Dawidziuk, B.M., and Preston, H.F.: Submarine cables in a satellite age 627
Dean, N.S.: Cables and equipment for cable systems 475
De Rivaz, J.: Windpower (letter) 292
De Rivaz, J.C.: Power oscilloscopes (letter) 464
Department of Industry's CAE initiatives by Kenneth Baker, MP 10
Dettmer, R.: Good company 656
Dettmer, R.: Lines drawn for digital switch battle at Geneva 772
Dettmer, R.: Micros in primary schools 295
Dettmer, R.: Micros in secondary schools 492
Dettmer, R.: Small electrolytic capacitors: a suitable case for treatment 241
Dettmer, R.: The world of the DRAM 801
Dettmer, R.: What makes CMOS run? 547
Device performance, quantum leaps in, by E.H.C. Parker and R.M. King 230
Dick, A.L.: Motorway electrification (letter) 386
Diesels for power generation by M. Holland 575
Dilger, L.: Motorway electrification (letter) 464
Distribution networks, rural, the use of autoreclosers and sectionalisers in, by T. Kelsey and S.J. Besford 724
Distribution transformers, corrugated tanks for, K.J. Sanders 729
Diversity and change 281
Dorey, H.A.: CADMAT appreciation — a progress report from industry 47
Dorey, A.H.: Remote metering — how not to replace the meter reader 163
DRAM, the world of the, by Roger Dettmer 801
Drives, selecting, for economy and performance by R.G. Rodwell 131

E

Economic analysis, the poverty of, by C.A. Horn 705
Electrical networks and sports competition by R. Wilkins 414
Electricity supply: present and future by J.S. Forrest 796
Electricity supply — problems and possibilities by M.N. John 702
Electrolytic capacitors, small: a suitable case for treatment by R. Dettmer 241
Electromagnetic emissions, designing against, by D.J. Morrison 324
Electronic document handling by R. Barrett 481
Electronic measuring instruments: results precise — but wrong by J.R. Pearce 155
Electrostatic device damage by J.W. Molyneux Child and G.F. de Voil 246
Energy matters (letter) 97
Engineering our future R&D by L. Holmes 293
EPIC award (letter) 97
Evans, A.: Fuse technology (letter) 619
Ex'e' enclosures (letter) 699

F

Fairclough, J.W.: Business role of the development engineer 337
Fensome, D.A.: Understanding 3-term control in industrial processes 647
Flexible manufacturing systems — a review by R.B. Sims 809
Forrest, J.S.: Electricity supply: present and future 796
Fox, S.: Measurement techniques for operational optical-fibre systems 159
Francis, A.: Social effects of CAE in Britain 72
Francis, A.: Social effects of IT (letter) 291
Freeman, E.M.: CAE of electrical machines 31
Freeman, G.: Computer technology for CAE systems 18
Freezing costs (letter) 292
Fuse technology, HRC, recent advances in, by P. Rosen and P.G. Newbery 495
Fuse technology (letters) 619, 768

G

Gambling, W.A.: The development of optical communication 777
Gap in the oscilloscope market? (letters) 95, 291
Gee, K.: Using a local area network of microcomputers 399
Genset performance, electronics brings advances in, by J.E. Ridout 568
Gibson, Col. D.T.W.: What grows from acorns? (letter) 291
Good company by Roger Dettmer 656
Gott, B.: Computer-aided engineering as a business 75
Grantham, C.: Ex'e' enclosures (letter) 699
Green, A.: Management of a CAE project 78
Greenfield, D.: Sockets for integrated circuits 409
Greenwood, J.H.: The constraints on the design and use of silicon-diaphragm pressure sensors 170
Gutgesell, H.: Basics of pressure transducers 175

H

Halling, J.: Power wire-wound resistors 244
Hammond, B.: Social effects of IT (letter) 253
Hanlon, P.D., Salihi, A., and Weston, R.H.: (see Weston) 401
Harbert, F.C.: Online laser detection of gases 314
Harris, D.J.: EPIC award (letter) 97
Harrison, D., Billingsley, J., and Naghdy, F.: (see Billingsley) 805
Harrow, P.: The selection of CAD systems 63
Hartley, P.P.: CHP schemes (letter) 620
Harrison, D., Billingsley, J., and Naghdy, F.: (see Billingsley) 805
Hazardous areas, the use of solid-state circuitry within, by R.J. Redding 328
Hazardous atmospheres, specification of Ex'e' enclosures for electrical equipment for use in by A. Bennett 321
Heinrich, D.O.: Photon connection (letter) 464
Hensel, P.: Local area networks and the impact of optical fibres 787
Hepworth, D.: Cable in the UK 471
Hidden, A.E.: A gap in the oscilloscope market? (letter) 95
Hidden, A.E.: Gap in the oscilloscope market? (letter) 291
Hill, B.: Elements of success in the European LCD market 248
Hillier, W.E.: Computer-aided engineering workstation 69
Holland, M.: Diesels for power generation 575
Holmes, L.: Amorphous-silicon devices start to shape up 222
Holmes, L.: Cable around the world 478
Holmes, L.: Computers in data communication 390
Holmes, L.: Computers in mechanical-components manufacture 22
Holmes, L.: Engineering our future R&D 293
Holmes, L.: Optical bistability — the promise of lightwave logic and switching 581
Holmes, L.: Sensors and automotive-engine control 178
Hook, A.P.: Microwave scalar analysis: practical points for accurate measurement 148
Horn, C.A.: The development of management in engineering 82
Horn, C.A.: The poverty of economic analysis 705
Howe, A.F., and McConnell, D.: Teaching electronics at a distance using the Cyclops telewriting system 485
HV cables at high temperatures by A.W. Stannett 651

I

Importance of CAE to Britain by Patrick Jenkin, MP 9
Industrial news 86, 123, 212, 283, 374, 453, 535, 611, 691
Industrial processes, understanding 3-term control in, by D.A. Fensome 647
In retrospect 94, 130, 252, 290, 385, 462, 546, 615, 698, 771
In the picture 609
INS, progress on, by Y. Kitahara 555
Interactive graphics systems for CAE by C.J. Angus 13
International maritime satellite communication by D. Wright 623
Internepcon/UK '83 661
Intrinsic safety by A.L. Bartels 301
Introducing CAE into the aerospace industry by P. Birtles 59
Is there a case for nuclear power? (letter) 97

J

Jack, M.A.: Semicustom-integrated-circuit design in the UK — a capability profile 217
Japanese challenge — need the West bow out? 533
Japanese industrial strategy by J. Prentice 561
Japanese industry (letter) 699
Jenkin, P.: Importance of CAE to Britain 9
John, M.N.: Electricity supply — problems and possibilities 702

Johnson, R.D.: Cooling of electrical and electronic equipment in sealed enclosures 332
Jones, C.: Safety — cost dilemma for switchgear manufacturers 727

K

Kelly, P.T.F.: Current and future development in international data networks 635
Kelsey, T., and Besford, S.J.: The use of autoreclosers and sectionalisers in rural distribution networks 724
King, R.M., and Parker, E.H.C.: (see Parker) 230
Kitahara, Y.: Progress on INS 555

L

Langmuir-Blodgett films — the ultrathin barrier by C. Pitt 226
Lawrenson, P.: Switched-reluctance motor drives 144
LCD market, European, elements of success in the, by B. Hill 248
Lightning leader (letter) 95
Lines drawn for digital switch battle at Geneva by Roger Dettmer 772
Lingard, W.B.: Street lighting (letter) 292
Linley, B.D.: Management in engineering (letter) 386
Lloyd, P.: Optical disc drives — the breakthrough in data storage 711
Local area network, the use of a commercial, in distributed machine and process control systems by R.H. Weston, P.D. Hanlon and A. Salihi 401
Local area network, using a, of microcomputers by K. Gee 399
Local area networks and the impact of optical fibres by Paul Hensel 787

M

Macario, R.C.V.: AM stereo — fact or fiction? 643
Macdonald, N.: Thermocouple inteconnection for high accuracy 412
Mackey, A.M., Wrigley, M.F., and Brown, S.L.: (see Brown) 405
Management in engineering (letter) 386
Management in engineering, the development of, by C.A. Horn 82
Management of a CAE project by A. Green 78
Mason, H.L.: A practical approach to the testing of a high-volume custom linear IC 505
Measurement techniques for operational optical-fibre systems by S. Fox 159
Mercury: high-speed integrated business telecommunications by P.J. Gott 489
Meredith, R.: Enhanced testing of VLSI devices 499
Microcomputer power, harnessing, for the plant monitoring and control market by B. Tinham 708
Micros in primary schools by R. Dettmer 295
Micros in secondary schools by R. Dettmer 492
Microwave scalar analysis: practical points for accurate measurement by A.P. Hook 148
Molyneux Child, J.W., and de Voil, G.F.: Electrostatic device damage 246
Montgomery, A.P.: Standards (letter) 292
Morrison, D.J.: Designing against electromagnetic emissions 324
Motors and motor drives: the new challenge by D.A. Ball 135
Motorway electrification (letters) 386, 464
Mukaibo, T.: Development of nuclear science and technology in Japan 551
Murgatroyd, P.N.: Sporting chance (letter) 620
McConnell, D., and Howe, A.F.: (see Howe) 485
McNally, T.: Fuse technology (letter) 768

N

Naghdy, F., Harrison, D., and Billingsley, J.: (see Billingsley) 805
New Products 101, 185, 259, 349, 423, 513, 589, 667, 737, 817
Newbery, P.G., and Rosen, P.: (see Rosen) 495
Noltingk, B.E.: Right environment (letter) 463
NRDC role in technology transfer 121
Nuclear science and technology in Japan, development of, by T. Mukaibo 551

O

Online laser detection of gases by F.C. Harbert 314
Optical bistability — the promise of lightwave logic and switching by L. Holmes 581
Optical disc drives — the breakthrough in data storage by P. Lloyd 711
Optical communication, the development of, by W.A. Gambling 777
Optical communication, semiconductor light sources for, by Daniel Renner 781
Optical fibres, local area networks and the impact of, by Paul Hensel 787
Oscilloscopes and power (letter) 253

P

Parker, E.H.C., and King, R.M.: Quantum leaps in device performance 230
Pascall, S.C.: Launchers for communication satellites 631
Pass it on (letter) 253
Pearce, J.R.: Electronic measuring instruments, results precise — but wrong 155
Pender, J.T., Tedford, D.J., and Campbell, L.C.: (see Tedford) 719
Photon connection (letter) 464
Pitt, C.: Langmuir-Blodgett films — the ultrathin barrier 226
Plus ca change . . . (letter) 386
Power oscilloscopes (letters) 464, 620
Power semiconductors extend control horizons by T.E. Ruggles 233
Power-system economics (letter) 95
Power-system monitoring equipment by B. Clegg 166
Power transistors for motor control by M. Woodcock 237
Prentice, J.: Japanese industrial strategy 561
Preview 451
Providing the right environment by G. Sapsed 342
Pytches, D.: Zinc-air cells: power source of the future 577

R

Radiation and cooling (letter) 463
Reactance measurement (letter) 699
Redding, R.J.: The use of solid-state circuitry within hazardous areas 328
Remote metering — how not to replace the meter reader by H.A. Dorey 163
Renner, D.: Semiconductor light sources for optical communication 781
Resistors, power wire-wound by J. Halling 244
Rewiring of Britain — what does it mean? by W.K. Ritchie 467
Ridout, J.E.: Electronics brings advances in genset performance 568
Right environment (letter) 463
Ritchie, W.K.: Rewiring of Britain — what does it mean? 467
Robertson, S.S.J., and Bryce, D.J.: (see Bryce) 298
Robot, the craftsman, by J. Billingsley, F. Naghdy and D. Harrison 805
Robson, C.W.: Windpower (letter) 97
Robson, C.W.: Windpower (letter) 620
Rodwell, R.G.: Selecting drives for economy and performance 131
Role of CAD in semicustom IC design by D. Broster and A. South 42
Rosen, P., and Newbery, P.G.: Recent advances in HRC fuse technology 495
Ruggles, T.E.: Power semiconductors extend control horizons 233

S

Sabry-Grant, R.: What is an engineer? (letter) 699
Safety — cost dilemma for switchgear manufacturers by C. Jones 727
Salihi, A., Weston, R.H., and Hanlon, P.D.: (see Weston) 401
Sanders, K.J.: Corrugated tanks for distribution transformers 729
Sapsed, G.: Providing the right environment 342
Selection of electrical apparatus for use in explosive gas atmospheres by D. Boon 305
Selling, successful, in Japan — the art of the practical by K. Bradshaw 566
Semiconductor light sources for optical communication by Daniel Renner 781
Semiconductor memories, tomorrow's, by T. Yasui 558
Semicustom-integrated-circuit design in the UK — a capability profile by M.A. Jack 217
Sensors and automotive-engine control by L. Holmes 178
SF_6 switchgear, modern research and development in, by D.J. Tedford, L.C. Campbell and J.T. Pender 719
Silicon-diaphragm pressure sensors, the constraints on the design and use of, by J.H. Greenwood 170
Sir William Siemens by Sigfrid von Weiher 791
Sims, R.B.: Flexible manufacturing systems, a review 809
Smith, P.R.: Computer-based learning in engineering 27
Social effects of CAE in Britain by A. Francis 72
Social effects of IT (letters) 253, 291
Sockets for integrated circuits by D. Greenfield 409
South, A., and Broster, D.: (see Broster) 42
Spencer, P.T.: Microprocessors applied to variable-speed-drive systems 140
Sporting chance (letter) 620
Stanford, C.J.: Bus standards (letter) 619
Standards (letters) 292, 463
Stannett, A.W.: HV cables at high temperature 651
Stevens, A.J.: Energy matters (letter) 97
Street lighting (letters) 292, 463, 619, 699
Submarine cables in a satellite age by B.M. Dawidziuk and H.F. Preston 627
Switched-reluctance motor drives by P. Lawrenson 144

T

Talbut, J.W.: The use of busbars and sliding brushgear in a coalmining environment 310
Taylor, W.: Fuse technology (letters) 619, 768
Teaching electronics at a distance using the Cyclops telewriting system by A.F. Howe and D. McConnell 485
Tedford, D.J., Campbell, L.C., and Pender, J.T.: Modern research and development in SF_6 switchgear 719
Testing, a practical approach to the, of a high-volume custom linear IC by H.L. Mason 505
Thermocouple interconnection for high accuracy by N. Macdonald 412
Tinham, B.: Harnessing microcomputer power for the plant monitoring and control market 708
Transducers, pressure, basics of, by H. Gutgesell 175
Turner, W.: Street lighting (letter) 463

U

UK response to the 'fifth generation' by J. Alvey 387
Ungentle rain 689
Uninterruptible power sources for computer installations by I. West 571
Universe project by S. Wilbur 394

V

Variable-speed-drive systems, microprocessors applied to, by P.T. Spencer 140
de Voil, G.F., and Molyneux Child, J.W.: (see Molyneux Child) 246
